Subject: The Ideal LC/MS Solution for Food Analysis

Ideally suited to the challenges of food analysis, the Flexar™ SQ 300 MS is a cutting-edge detector featuring:

- **Interchangeable snap-in probes** that minimize cross-contamination and maximize productivity.
- **An adjustable, angled probe design** that allows the user to optimize ionization and ion transmission for superior sensitivity.
- **Super-soft ionization capability** to determine molecular weight for challenging compounds.
- **A powerful quadrupole mass analyzer** that can be run in multiple acquisition modes.
- **Best-in-class digital pulse-counter detector** for exceptionally fast data acquisition rates.

Take advantage of this special promotion and experience what the Flexar SQ 300 MS can do for you.
